## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2, 9, 10, 15, 16, 19, 22, 23, 25 – 29, 31, 33, 36, 38, 41, 42, 44, 46, 54, 58, 60 – 89 & 92 – 96, drawn to an analytical apparatus for performing chemical assays, and an associated method for operating the apparatus, classified in class 422, subclass 68.1.
- II. Claims 48, 49, 51, 52, 90 & 91, drawn to a method of manufacturing an analytical apparatus, classified in class 29, subclass 592.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product made and process of making. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process. For example, the apparatus can be possibly manufactured by various other processes, such as wet chemical etching, air abrasion techniques, injection molding, embossing or stamping, in addition to UV-laser photoablation.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1743

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
